HOW TO USE THIS Divide the seven searches between the team. Write your headline finding on the line, and put the lead member's initials in the last column. Attach your slide deck, roughly one page per part with the images, and bring both to class.

Part	The search, and the finding you bring	Lead
01 BRAND	Five adjectives, the owned colour with its hex code, and one line placing the brand against its nearest competitor.	INITIALS
02 GENRE	The genre ratio across the last twenty posts (still life / lifestyle / portrait / food / fashion), and what that ratio reveals.	INITIALS
03 CONCEPT	One named campaign and its concept in a single sentence. The concept is never the product itself.	INITIALS
04 STRATEGY	One strategic move from the last twelve months (launch, new audience, premiumisation, collaboration) and the images that carried it.	INITIALS
05 PLATFORM	One product followed across three surfaces. What changed: crop, aspect ratio, negative space, how much the image carries alone.	INITIALS
06 BRIEF	The brief you reconstructed: deliverables, platforms, tone, mandatories, and what was clearly forbidden.	INITIALS
07 STORY	The story in one sentence, and its structure: origin, ritual, transformation, or spectacle.	INITIALS
